Member Story - A Christmas Miracle

Here is an email we received from a member on Christmas Eve 2019:

I have just checked my accounts and all of my debts are paid and clear.

I cannot begin to describe the sense of relief and happiness I have going into the New Year, I have been battling with my credit cards for a year now and found an endless cycle had opened up, causing no end of sleepless nights, arguments and worry. It is a very bleak situation and I wish it on no one.

With my credit rating getting more dire by the month I approached Plane Saver as a last push with less than a hope of any assistance, You are true to your word in saying you help wherever you can and you have opened up my families future completely by looking closer at my situation. The smile that spread across my face when I told my wife I had been accepted was enough to show her the relief I was feeling (smiles were getting fewer and further between I am afraid).

I cannot recommend your company enough and will be sure to leave a testimonial once the season has passed as well as working to publicise with friends and colleagues what you can provide.

Once again,

Many thanks, and best wishes for you all over the festive period and the coming new year.

Do your finances have a Christmas hangover?

Start your journey to financial freedom with a Debt Consolidation loan this January to free up cash every month and help you become debt free quicker.

Plane Saver gifts an iPad at Christmas

We have been running a competition for members who choose to switch from Standing Order to Direct Debit. We are delighted to announce that our member Paul Rice has won an iPad this Christmas! All the Plane Saver team hope that Paul enjoys his prize.

Paul joined Plane Saver when he used to work for Avios in Crawley and British Airways in Harmondsworth. On hearing the news he said "I am thrilled! It is good timing because Apple have withdrawn support for my old iPad Mini and this will help me continue to keep in touch while on the move."

If you'd like to switch to Direct Debit like Paul, you can do so here.
